

Cleaning Fees

A cleaning fee may be applied for any dirt accumulation in any of these areas: Exterior of the vehicle, interior of the motorhome cab (vehicle part), interior of the motorhome living space. The exact charge is determined by the condition the vehicle is returned in and how much time will be required to clean the rental unit for the next guest. If customers wish to avoid all cleaning fees (money saver option), the vehicle should be returned with a clean interior and exterior.

Following, you can see some examples where the cleaning fees would get applied.
