While we do not sell insurance, please be aware that you will be traveling through sparsely populated areas and nature may ask for adjustments in an itinerary due to flooding, wildfire, blizzards or similar events. Also naturally occurring human disease processes (including, but not limited to, the currently widespread Corona Virus) occur in all environments. Please ensure that you have good travel insurance as travel adjustments may result in additional services that will need to get paid on spot.

Ferry Information

We do not include any ferry sailings with Alaska Marine Highway Systems in our road trip packages, as their schedule had been reduced to very few or no sailings in specific directions, with focus on serving the communities and their needs only, not catering towards tourists' itineraries anymore, which would require more sailings than only one every other week as currently is in discussion for many places.

If you would like to add a ferry sailing, we will add that sailing into the existing routing should a sailing be scheduled and bookable. Should the schedule later change, and no sailing is offered that day anymore, you will drive per itinerary.

For ferry sailings please also advise full names as written in your passports (incl. middle names), dates of birth and phone number under which you can be contacted during the trip.

GoNorth will charge a booking fee of USD 25.00 for each leg in addition to the official ferry rates.

Accommodation

Listed are the priority accommodations for each road trip package. We book a similar alternative if a property is not available at the time of booking. Please note this might also change meal inclusions (e.g. breakfast might no longer be included). Please read our confirmation, which will list all the accommodations and activities booked for your road trip package carefully, as they may differ from the 1st priority listed in this tariff.

Where more than one hotel is listed, oftentimes the second priority is of significantly different character over the other accommodation. Please let us know at time of booking, which option you would prefer if available.

We always appreciate receiving information on your preferences: type of accommodation (hotel, inn, cabins, B&B, mix of all etc.), location (in town/downtown, out of town/natural setting). It may not always be possible to accommodate the preferences, but we will try and change according to your request where possible over the hotels listed as first priority, as long as it does not affect the price listed.

Please request particular bed configuration or other special requests at time of booking. Requests received at a later point oftentimes will result in accommodation change and change fees will apply.

Not all accommodations are offering daily housekeeping anymore, you can always contact the reception for additional items if needed.

Changes in service since pandemic:

Naturally occurring human disease processes occur in all environments. While businesses are taking reasonable measures to avoid contact, exposure, transmittal, or contamination of viruses between people (including guests, employees and other third parties), it is the guests' sole responsibility to safeguard themselves and others. Requirements such as vaccination, wearing masks and keeping physical distance may still be in effect: meal options and other services may be offered in an adjusted form to prevent objects from being touched by multiple persons; in a lot of hotels daily housekeeping is not offered anymore if guests are staying multiple nights. If you need additional towels, soap or any other amenities for the consecutive days, they need to ask the front desk to provide.

We look forward to welcoming you to Alaska and the Yukon for a great travel experience in these beautiful states of incredibly scenic nature !
